

# SF80

## High Capacity Feeder Stacker

The newly designed SF80 is McCloskey International's latest offering as a feeder stacker. It comprises of a large feeder hopper that transfers material onto an 80ft conveyor.

Designed to allow operators to stockpile/transfer material it eliminates double handling of materials.

The unit can also be compacted for transport on one low loader for easy site to site transport.

## Features

- 100KW (127HP) engine
- Hydraulic folding heading section for transport minimizing setup time.
- Hydraulically adjustable discharge height up to 6.5m
- 4m tracks for superior maneuverability and stability.
- Fuel efficient Hydraulics system.
- User Friendly Hydraulic Controls
- Dual hydraulic main drive system.
- Hopper extensions increasing capacity

### Dimensions and Capacities

Engine	100kW (127Hp)
Transport Length	19.4m (38' 8")
Transport Width	3.2m (10' 6")
Transport Height	3.4m (11' 1")
Weight	245,000kg approx. (540,133 lbs)
Working Height	10m (32' 5")
Working Length	26.2m (86' 1")
Hopper Capacity	13m <sup>3</sup> (17 yd <sup>3</sup> )
Max. Production Rate	880 TPH (800 metric TPH)

#### Large Feeder

Steel hopper allows operators to load 13m<sup>3</sup> of standard aggregates with hopper extensions option to increase capacity.

#### 80' Main Conveyor

Heavy duty main 48" (1200mm) wide conveyor and 50' long offers hydraulic folding.

#### Hydraulic Folding Conveyor

Hydraulic folding heading section for transport minimizing setup time.

#### Hopper Extensions

Hopper extensions increasing capacity.

#### Tracked Mobility

Fully portable tracked unit with 4m wide tracks, allowing for maximum on-site stability.
